

MENTAL HEALTH RESEARCH CENTRE

Would like to invite you to a symposium on Trauma and Young People At Risk of Psychosis June 21st 2013

The Symposium brings together our collaborators from the Netherlands and the UK to prepare an intervention study to address the needs of young people who have experienced trauma. We would particularly welcome and value input from services users, carers and clinicians in the discussion of interventions for trauma.

10.15	Morning Coffee	
10.45	Professor Pali Hungin	Welcome and Opening
11.00	Professor Matthias Schwannauer (Edinburgh University)	Attachment mentalisation and the emergence of severe mental health problems in young people
11.30	Professor Mark Van Der Gaag (University of Amsterdam)	EMDR and the treatment of trauma in schizophrenia spectrum patients
12.00	Dr Helen Stain (Durham University)	Psychological interventions for trauma in young people
12.30	Dr Tim Cate (Tees, Esk & Wear, NHS Trust)	Tees Esk and Wear Valley Psychological Therapies services for those in transition
12.45	Dr Amanda Skeate (Youthspace)	Experiences of Birmingham Early Detection and Intervention Team: Working with people at ultra high risk.
