

DURHAM INTERNATIONAL FELLOWSHIPS FOR RESEARCH & ENTERPRISE (DIFeREns)

Launched in 2011, this scheme COFUNDED between Durham University and the European Union is designed to gather together scholars, researchers, policy makers or practitioners from around the world and across the full spectrum of science, social science, arts and humanities to address themes of global significance in collaboration with Durham's Research Institutes and researchers.

Senior Research and Policy & Enterprise Fellowships allow holders to develop their research and ideas collaboratively in Durham's thriving academic community. Available for periods of 6 weeks to 6 months applications are considered from researchers with an established or emerging international reputation for scholarship or research leadership.

Durham University covers the costs associated with travelling to Durham and provides a generous honorarium; office space; IT access; College accommodation; membership of a College Senior Common Room; access to specialist facilities; IAS affiliate status; and opportunities to participate in Durham's academic, social and cultural activities.

Junior Research Fellowships are aimed at postdoctoral researchers typically with 2-5 years post-doctoral experience. JRFs pursue new research ideas of their own design, normally for 2 years by which time they should be of a standing and maturity to win permanent positions.

Each JRF has a mentor and a personal development plan to develop their research management and leadership skills and will be able to take advantage of the award-winning University Research Training Programme. Starting salaries are in the range £31,342 – £35,256 p.a and JRFs have full access to the University library, IT resources and specialist research facilities relevant to their project as well as up to €7k p.a. for research consumables, travel & conference attendance.

All Fellows are based in host Departments / Institutes.
Residency restrictions apply.
